|  | H/O stating they three electrical issues:<br>1) outlets not working in the kitchen, by front door, back door and garage. Tech diagnosed and found the kitchen outlets were working. Tech found a 20 amp CH Breaker had a loose connection. Tech made repairs and issue is resolved. Front door, back door and garage are all related. Tech found a bad GFCI in the garage. It was worn out from normal usage. Tech replaced and power has been restored.<br><br>2) H/O stating an outside motion sensor light is not working. This is not a covered item and tech made H/O aware of this.<br><br>3) Ceiling fan in the LR will not change speeds. Tech diagnosed and found the pull chain had been pulled out so the fan would not change speeds. Tech replaced pull chain and fan is working properly. |        |                    |
| This work has been completed to the customer's satisfaction. |   |        | Sub-Total 45       |
